AIR POLLUTION CONTROL
ACTIVE RESEARCH GRANTS
FOR FISCAL YEAR 1971

OFFICE OF RESEARCH GRANTS
RESEARCH TRIANGLE PARK, N.C.

ENVIRONMENTAL PROTECTION AGENCY
Office of Air Programs
Research Triangle Park, North Carolina
July, 1971

The APTD series of reports is issued by the Office of Air Programs to report technical data of interest to a limited readership. Copies of APTD reports may be obtained upon request, as supplies permit, from the Office of Technical Information and Publications, Office of Air Programs, Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

DISCRIMINATION PROHIBITED--Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance." Therefore, the Office of Research Grants, Office of Air Programs, like every program or activity disbursing financial assistance from the Environmental Protection Agency, must be operated in compliance with this law.

Office of Air Programs Publication No. APTD-0740

FOREWORD

Under the authority of the Clean Air Act, the Office of Air Programs, Office of Research Grants, promotes and administers a research grants program with universities and other nonprofit organizations on the causes, effects, extent, prevention, and control of air pollution with respect to human health, welfare, and productivity. The purpose of this program is to promote and encourage research and development of new concepts, methods, and equipment for the establishment of air pollution standards and more effective air pollution control.

During fiscal year 1971, grants were awarded in eight major areas: human health effects, agricultural effects, socio-economic and political studies, physico-chemical investigations, development of analytic methods and equipment, meteorology, air pollution source control, and communications.

The grants listed herein represent those grants active during fiscal year 1971. In instances where no support is shown, these are grants already being supported which, for one reason or another, did not require that funds be awarded during this fiscal year. In some cases, the reader will note that project ending dates may have occurred prior to the end of the fiscal year; however, these grants are listed since they were active during the reporting period.
